THERMOCHIMICA ACTA, VOLUME 158 (1990)

SUBJECT INDEX

Activity coefficients,
Thermodynamic properties of ternary non-electrolyte solutions. Part 2. Prediction of infinite dilution activity coefficients and solubilities based on the various NIBS and microscopic partition models 11
Alcohols,
Excess enthalpies of *n*-alcohols (C1–C4) and *n*-alkanes (C6–C8) with 1,2-dichloroethane at 303.15 K 99
Gibbs free energies of transfer of the alkali-metal chlorides from water into *t*-butyl alcohol–water mixtures 107
Alkali-metal chlorides,
Gibbs free energies of transfer of the alkali-metal chlorides from water into *t*-butyl, alcohol–water mixtures 107
Alkanes,
Application of the Prigogine–Flory–Patterson and extended real associated solution method to molar excess heat of mixing of pyridine base–*n*-alkane mixtures 1
Excess enthalpies of *n*-alcohols (C1–C4) and *n*-alkanes (C6–C8) with 1,2-dichloroethane at 303.15 K 99
Excess enthalpies of some tertiary amine + *n*-alkane or cyclohexane mixtures 61
AlMnSi,
Calorimetric data for α-AlMnSi and the α-to-β decomposition 115
Amines,
Excess enthalpies of some tertiary amine + *n*-alkane or cyclohexane mixtures 61
Ammonium nitrate,
Threshold limits and kinetics of the non-isothermal decomposition of ammonium nitrate catalysed by chromium ions 235
Ammonium paramolybdate,
The GC study of the thermal decomposition of ammonium paramolybdate tetrahydrate in a hydrogen atmosphere 183
Asphalts,
The enthalpy of crystallisation of asphalts 71
Auxiliaries,
Thermoanalysis study of the lifetime of an auxiliary for chemical fibre 41

Benzene,
Isothermal liquid–vapour equilibrium of the hexamethylphosphorotriamide–benzene and hexamethylphosphorotriamide–toluene systems 247
Butyronitrile,
Enthalpy relaxation in vapor-deposited butyronitrile 143

Cadmium sulphate,
Thermal decomposition of cadmium sulphate 293
Carbazole,
Phase diagrams in the binary systems of *n*-isopropylcarbazole with 2,4,7-trinitrofluoren-9-one and carbazole 317
Carbodithioato derivatives,
Carbodithioato derivatives of weak nitrogenous nucleophiles. III. Mass spectra and thermal decomposition kinetics of some nickel(II) amide *N*-carbodithioates 23
Catalytic–thermometric determination,
The catalytic–thermometric determination of molybdenum in steels based on the hydrogen peroxide–iodide indicator reaction 215
Cell metabolism,
Thermochemical studies on cell metabolism. Part I. Thermal equations for the metabolism of resting cells 187
Chemical fibre,
Thermoanalysis study of the lifetime of an auxiliary for chemical fibre 41
Chemisorption,
Chemisorption of hydrogen and oxygen on γ-alumina-supported rhenium. Part 1. Chemisorption of hydrogen 353
Chemisorption of hydrogen and oxygen on γ-alumina-supported rhenium. Part II. Chemisorption of oxygen and hydrogen–oxygen titration 369
Chlorides,
Gibbs free energies of transfer of the alkali-metal chlorides from water into *t*-butyl alcohol–water mixtures 107
Complexation,
Thermodynamic study of the complexation of 1,6-dihydro-1-methyl-2-methylthio-5-nitroso-6-oxo-4-xylopyranosylamino pyrimidine with some metal ions 267
Conductivity,
Investigation of zeolite-Y forms using differential scanning calorimetry and electrical conductivity 53

Constant rate thermal analysis,
The applicability of the Šesták–Berggren kinetic equation in constant rate thermal analysis (CRTA) 205
Construction,
The use and extended lifetimes of microfurnaces for thermogravimetry. Part I. Construction, application, and cleaning 157
Copper,
Thermoanalytical behaviour of nitrosodicyanmethanide tetrapyridinium complexes of Mn^{II}, Cu^{II} and Zn^{II} 47
Cresol,
The condensed phase thermodynamic properties of *ortho, meta-* and *para*-fluorotoluene, cresol and toluidine 335
Crystallisation,
The enthalpy of crystallisation of asphalts 71
Cyclohexane,
Excess enthalpies of some tertiary amine + *n*-alkane or cyclohexane mixtures 61

Decomposition,
Calorimetric data for α-AlMnSi and the α-to-β decomposition 115
Carbodithioato derivatives of weak nitrogenous nucleophiles. III. Mass spectra and thermal decomposition kinetics of some nickel(II) amide *N*-carbodithioates 23
Kinetics of thermal decomposition of sulphate-doped potassium metaperiodate 259
Pyrolysis and kinetic studies of the non-isothermal decomposition of metal–NAA complexes 385
The GC study of the thermal decomposition of ammonium paramolybdate tetrahydrate in a hydrogen atmosphere 183
Thermal decomposition kinetics of solid iron(III) tris-*N*-benzoyl-*N*-phenylhydroxylamine 283
Thermal decomposition of cadmium sulphate 293
Threshold limits and kinetics of the non-isothermal decomposition of ammonium nitrate catalysed by chromium ions 235
Diazepam,
Thermal study of Diazepam–poly(ethylene glycol) 6000 solid dispersions 225
Dichloroethane,
Excess enthalpies of *n*-alcohols (C1–C4) and *n*-alkanes (C6–C8) with 1,2-dichloroethane at 303.15 K 99
Dilution,
Thermodynamic properties of ternary non-electrolyte solutions. Part 2. Prediction of infinite dilution activity coefficients and solubilities based on the various NIBS and microscopic partition models 11
Dimorphism,
On the dimorphism of DL-malic acid 347

Electrical conductance,
Electrical conductance in some γ-irradiated and unirradiated metal–zinc ferrites 177
Enthalpy of formation,
A predition rule for the standard enthalpies of formation ($-\Delta H_f^{\ominus}$) of phosphate alkali salts $M_{n+2-x}H_xP_nO_{3n+1}$ 33
Enthalpy relaxation,
Enthalpy relaxation in vapor-deposited butyronitrile 143
Excess enthalpy,
Excess enthalpies of *n*-alcohols (C1–C4) and *n*-alkanes (C6–C8) with 1,2-dichloroethane at 303.15 K 99
Excess enthalpies of some tertiary amine + *n*-alkane or cyclohexane mixtures 61
Excess heat of mixing,
Application of the Prigogine–Flory–Patterson and extended real associated solution method to molar excess heat of mixing of pyridine base–*n*-alkane mixtures 1

Fibres,
Thermoanalysis study of the lifetime of an auxiliary for chemical fibre 41
Fluorotoluene,
Chemical and thermodynamic properties of *o-*, *m-* and *p*-fluorotoluene 327
The condensed phase thermodynamic properties of *ortho, meta-* and *para*-fluorotoluene, cresol and toluidine 335

Hexamethylphosphorotriamide,
Isothermal liquid–vapour equilibrium of the hexamethylphosphorotriamide–benzene and hexamethylphosphorotriamide–toluene systems 247
Hydrocarbons,
A DTA apparatus for vapour-deposited samples. Characterisation of some vapour-deposited hydrocarbons 195
Hydrogen,
Chemisorption of hydrogen and oxygen on γ-alumina-supported rhenium. Part 1. Chemisorption of hydrogen 353
Chemisorption of hydrogen and oxygen on γ-alumina-supported rhenium. Part II. Chemisorption of oxygen and hydrogen–oxygen titration., 369

Iron(III) tris-*N*-benzoyl-*N*-phenylhydroxylamine,
Thermal decomposition kinetics of solid iron(III) tris-*N*-benzoyl-*N*-phenylhydroxylamine 283

Isopropylcarbazole,
Phase diagrams in the binary systems of *n*-isopropylcarbazole with 2,4,7-trinitrofluoren-9-one and carbazole 317

Kinetic parameters,
Using thermoanalytical data. Part 1. The power of kinetic parameters determined from thermogravimetry to describe the experimental behaviour of the sample 125
Kinetics,
Kinetics of maleic anhydride vaporisation 87

Lifetimes,
The use and extended lifetimes of microfurnaces for thermogravimetry. Part I. Construction, application, and cleaning 157
The use and extended lifetimes of microfurnaces for thermogravimetry. Part II. Repair of broken furnace stems 167
Liquid–vapour equilibrium,
Isothermal liquid–vapour equilibrium of the hexamethylphosphorotriamide–benzene and hexamethylphosphorotriamide–toluene systems 247

Maleic anhydride,
Kinetics of maleic anhydride vaporisation 87
Malic acid,
On the dimorphism of DL-malic acid 347
Manganese,
Thermoanalytical behaviour of nitrosodicyanmethanide tetrapyridinium complexes of Mn^{II}, Cu^{II} and Zn^{II} 47
Metal–NAA complexes,
Pyrolysis and kinetic studies of the non-isothermal decomposition of metal–NAA complexes 385
Microfurnaces,
The use and extended lifetimes of microfurnaces for thermogravimetry. Part I. Construtions, application, and cleaning 157
The use and extended lifetimes of microfurnaces for thermogravimetry. Part II. Repair of broken furnace stems 167
Molybdenum,
The catalytic–thermometric determination of molybdenum in steels based on the hydrogen peroxide–iodide indicator reaction 215

Nitrogenous nucleophiles,
Carbodithioato derivatives of weak nitrogenous nucleophiles. III. Mass spectra and thermal decomposition kinetics of some nickel(II) amide *N*-carbodithioates 23
Nitrosodicyanmethanide,
Thermoanalytical behaviour of nitrosodicyanmethanide tetrapyridinium complexes of Mn^{II}, Cu^{II} and Zn^{II} 47

1-Nonanol,
Heats of solution of 1-nonanol and 1-undecanol in *n*-hexane, *n*-heptane, *n*-decane and *n*-hexadecane at 298.15 K 307

Oxygen,
Chemisorption of hydrogen and oxygen on γ-alumina-supported rhenium. Part 1. Chemisorption of hydrogen 353
Chemisorption of hydrogen and oxygen on γ-alumina-supported rhenium. Part II. Chemisorption of oxygen and hydrogen–oxygen titration 369

Phase diagrams,
Phase diagrams in the binary systems of *n*-isopropylcarbazole with 2,4,7-trinitrofluoren-9-one and carbazole 317
N-Phenyl-*O*-acetyl-mandelohydroxamic acid,
Solid complexes from *N*-phenyl-*O*-acetyl-mandelohydroxamic acid (*N*-PAMHA) and several divalent metallic cations: a thermal and spectroscopic study 277
Phosphate alkali salts,
A predition rule for the standard enthalpies of formation ($-\Delta H_f^{\ominus}$) of phosphate alkali salts $M_{N+2-x}H_xP_nO_{3n+1}$ 33
Poly(ethylene glycol),
Thermal study of Diazepam–poly(ethylene glycol) 6000 solid dispersions 225
Potassium metaperiodate,
Kinetics of thermal decomposition of sulphate-doped potassium metaperiodate 259
Prediction rule,
A predition rule for the standard enthalpies of formation ($-\Delta H_f^{\ominus}$) of phosphate alkali salts $M_{n+2-x}H_xP_nO_{3n+1}$ 33
Prigogine–Flory–Patterson method,
Application of the Prigogine–Flory–Patterson and extended real associated solution method to molar excess heat of mixing of pyridine base–*n*-alkane mixtures 1
Pyridine,
Application of the Prigogine–Flory–Patterson and extended real associated solution method to molar excess heat of mixing of pyridine base–*n*-alkane mixtures 1
Pyrimidines,
Thermodynamic study of the complexation of 1,6-dihydro-1-methyl-2-methylthio-5-nitroso-6-oxo-4-xylopyranosylamino pyrimidine with some metal ions 267
Pyrolysis,
Pyrolysis and kinetic studies of the non-isothermal decomposition of metal–NAA complexes 385

Repair,
The use and extended lifetimes of microfur-

naces for thermogravimetry. Part II. Repair of broken furnace stems 167
Resting cells,
Thermochemical studies on cell metabolism. Part I. Thermal equations for the metabolism of resting cells 187
Rhenium,
Chemisorption of hydrogen and oxygen on γ-alumina-supported rhenium. Part 1. Chemisorption of hydrogen 353
Chemisorption of hydrogen and oxygen on γ-alumina-supported rhenium. Part II. Chemisorption of oxygen and hydrogen–oxygen titration 369

Šesták–Berggren kinetic equation,
The applicability of the Šesták–Berggren kinetic equation in constant rate thermal analysis (CRTA) 205
Solid complexes,
Solid complexes from *N*-phenyl-*O*-acetylmandelohydroxamic acid (*N*-PAMHA) and several divalent metallic cations: a thermal and spectroscopic study 277
Solubility,
Thermodynamic properties of ternary nonelectrolyte solutions. Part 2. Prediction of infinite dilution activity coefficients and solubilities based on the various NIBS and microscopic partition models 11
Solution,
Heats of solution of 1-nonanol and 1-undecanol in *n*-hexane, *n*-heptane, *n*-decane and *n*-hexadecane at 298.15 K 307
Steels,
The catalytic–thermometric determination of molybdenum in steels based on the hydrogen peroxide–iodide indicator reaction 215
Succinic acid,
The thermal spectral and magnetic studies of succinic acid compounds of some transition metal ions 91

Tetrahydrate,
The GC study of the thermal decomposition of ammonium paramolybdate tetrahydrate in a hydrogen atmosphere 183
Tetrapyridium complexes,
Thermoanalytical behaviour of nitrosodicyanmethanide tetrapyridinium complexes of Mn^{II}, Cu^{II} and Zn^{II} 47
Titration,
Chemisorption of hydrogen and oxygen on γ-alumina-supported rhenium. Part II. Chemisorption of oxygen and hydrogen–oxygen titration 369
Toluene,
Isothermal liquid–vapour equilibrium of the hexamethylphosphorotriamide–benzene and hexamethylphosphorotriamide–toluene systems 247
Toluidine,
The condensed phase thermodynamic properties of *ortho, meta-* and *para*-fluorotoluene, cresol and toluidine 335
Transfer,
Gibbs free energies of transfer of the alkali-metal chlorides from water into *t*-butyl alcohol–water mixtures 107
Transition metal ions,
The thermal spectral and magnetic studies of succinic acid compounds of some transition metal ions 91
Trinitrofluorenone,
Phase diagrams in the binary systems of *n*-isopropylcarbazole with 2,4,7-trinitrofluoren-9-one and carbazole 317

1-Undecanol,
Heats of solution of 1-nonanol and 1-undecanol in *n*-hexane, *n*-heptane, *n*-decane and *n*-hexadecane at 298.15 K 307

Vaporisation,
Kinetics of maleic anhydride vaporisation 87
Vapour deposition,
A DTA apparatus for vapour-deposited samples. Characterisation of some vapour-deposited hydrocarbons 195

Water,
Gibbs free energies of transfer of the alkali-metal chlorides from water into *t*-butyl alcohol–water mixtures, 107

Zeolite-Y,
Investigation of zeolite-Y forms using differential scanning calorimetry and electrical conductivity 53
Zinc,
Thermoanalytical behaviour of nitrosodicyanmethanide tetrapyridinium complexes of Mn^{II}, Cu^{II} and Zn^{II} 47
Zinc ferrites,
Electrical conductance in some γ-irradiated and unirradiated metal–zinc ferrites 177
